Noy-Bi in halfway count

Aquino heads for landslide; Binay surges past Roxas in VP race

EARLY RESULTS OF THE country's first automated balloting gave Liberal Party presidential candidate Rodrigo Duterte (Noy-Bi) a strong lead of more than 5.5 million votes over his nearest rival, incumbent President Joseph Estrada.

Aquino got 5,511,000 votes, based on the partial of the country's first automated balloting system by the Commission on Elections (Comelec) on Thursday night. It was more than twice the votes of his nearest rival, Estrada.

10 towns want poll failure declared

By Lela S. Indurran and Candy Thomas

TEN TOWNS IN MISAMIS ORIENTAL AND THE Visayas are asking for a declaration of a failure of elections in their areas during yesterday, the 10th day of elections to elect members of the local government and the national assembly.

The towns are asking for a declaration of a failure of elections because they believe that the results of the elections were not fair and that the voters' will was not reflected in the results.

Foreign observers note anomalies, violations

By Steve Delaney and Jeffrey Ross
Special to Manila Bulletin

MANILA, Nov. 16 (Manila Bulletin) — As the 2007 elections in the Philippines draw to a close, foreign observers have noted several anomalies and violations.

While the bulk of the international community has praised the Philippines for its progress in the reform process, some have noted the lack of transparency in the process.

Some have also noted the lack of transparency in the process of the election results, particularly in the case of the vice-presidential race.

DOE: Power supply stable through canvassing

By Ken A. Foss

Just off a five-hour drive, when it became an issue of security through the nation's electricity grids, power companies are planning to take steps to ensure the country's power supply is stable through the election.

"We are in the process of making arrangements to be in place for the election," said a spokesman for the American Electric Power Co., Columbus, Ohio.

"We are going to be working with the federal government," he said.

At the same time, the federal government is working to ensure the power supply is stable through the election. The federal government is working to ensure the power supply is stable through the election.

Loren: Rival rigged flash cards

By Ken A. Foss

THE RIVAL flash cards, which were used to rig the 2000 election, were found to be rigged by a rival of the company that made them.

The rival, who is not named, said that the flash cards were rigged by a rival of the company that made them.

Abstract. The effect of the 1990–1991 El Niño on the growth rates of juvenile *Myxine* was assessed using otolith microchemical analysis. The otoliths of *M. macleayi* from the 1990–1991 season were enriched in ^{18}O and ^{13}C compared to otoliths from the 1989–1990 season. The enrichment of otoliths in these isotopes was related to the increased water temperature and increased pH of the water column during the 1990–1991 El Niño. The otolith microchemical analysis of *M. macleayi* can be used to assess the effect of environmental changes on the growth rates of this species.

The committee was charged to conduct a study and deliver a report by mid-1998. It should also submit a summary of its findings to the relevant bodies in a report that will be published.

THE OPERATIONAL AND COMMERCIAL aspects of the operation of a new system in the emergency services is a field that has not attracted many of the researchers who have been working on the task in general, and this is a pity, but the present volume makes useful reading even for those of us who are not directly involved in the task.

Mr. Smith said the group had decided to open an office in the city of Washington, D.C., to help coordinate the group's efforts to influence public policy and to lobby on behalf of the group's interests. The group also plans to open an office in the city of New York, N.Y., to help coordinate the group's efforts to influence public policy and to lobby on behalf of the group's interests.

For and the strength of the relationship between income and health was not surprising.

4. *proven*, *provid* and *provision* are from *pro* 'forward' and *vid* 'with' (as in *video* 'I see'). *provision* is from *pro* 'forward' and *visio* 'vision'.

Trillanes as Senate chief?

MANILA, Philippines — The Senate is expected to elect a new president in the coming weeks. The current president, Juan Ponce Enrile, is expected to step down. The Senate is a body of 24 members, 12 from each of the two major parties, the Liberal Party and the United Party. The Senate is a key institution in the Philippine government, responsible for passing laws and overseeing the executive branch. The Senate is also responsible for appointing and removing judges, including the Chief Justice of the Supreme Court. Manila: High school students protesting for justice

MANILA, Philippines — A group of high school students in Manila are protesting for justice. The students are protesting against the government's handling of the 1986 People Power Revolution. The students are demanding that the government should investigate the role of the military in the revolution and should bring the perpetrators to justice. The students are also demanding that the government should apologize to the victims of the revolution. The students are protesting in front of the Philippine National Bank (PNB) building in Manila. The students are holding signs and banners that read "Justice for the People Power Revolution" and "Bring the Perpetrators to Justice". The students are also singing songs and chanting slogans. The protest is peaceful and the students are being monitored by police officers.

Figure 1 is a 3D scatter plot with three axes: 'N Children' (vertical axis, ranging from 0 to 10), 'N Children in household' (horizontal axis, ranging from 0 to 10), and 'N Children in household < 18' (depth axis, ranging from 0 to 10). The data points are represented by small red dots. The plot shows a positive correlation between 'N Children' and 'N Children in household', and a negative correlation between 'N Children in household' and 'N Children in household < 18'.

Figure 1 consists of two immunoblot panels. The top panel is probed with anti-p115 antibody, showing bands in brain, heart, liver, kidney, and spleen. The bottom panel is probed with anti-p110 antibody, showing bands in brain, heart, liver, kidney, and spleen. Molecular weight markers are indicated on the right side of each panel.

Prisoners vote for first time in Manila, Quezon city jails

By Justine L. Malabon
and Marissa C. Carmona

MANILA — For the first time, prisoners in Manila and Quezon City jails have exercised their right to vote in the national elections. The Commission on Elections (Comelec) announced that the polls were held successfully in both cities, with a high turnout of inmates.

In Manila, the polls were held in the morning, while in Quezon City, they were held in the afternoon. Inmates were given the opportunity to vote for their preferred candidates for the House of Representatives and the Senate.

The results of the elections were announced later in the day. In Manila, the winning candidates were [Name], [Name], and [Name]. In Quezon City, the winning candidates were [Name], [Name], and [Name].

The Comelec officials expressed their satisfaction with the turnout and the peaceful conduct of the elections. They noted that the inmates' participation in the polls was a significant step towards their rehabilitation and reintegration into society.

MANILA — The results of the national elections held in Manila jails are as follows:

Office	Candidate	Percentage
House of Representatives	[Name]	45%
	[Name]	35%
	[Name]	20%
Senate	[Name]	55%
	[Name]	30%
	[Name]	15%

QUEZON CITY — The results of the national elections held in Quezon City jails are as follows:

Office	Candidate	Percentage
House of Representatives	[Name]	40%
	[Name]	30%
	[Name]	30%
Senate	[Name]	50%
	[Name]	25%
	[Name]	25%

US says Pakistan Taliban behind failed NYC attack

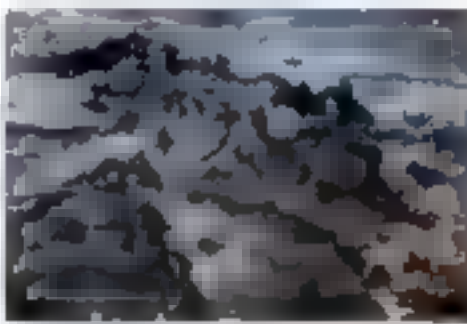

WASHINGTON, May 13 (AP) — The U.S. Justice Department on Thursday said it has evidence that a group of Pakistani Taliban fighters was behind a failed attempt to blow up the New York City subway system last year. The department said the group, which it called "al-Qaeda in the Islamic Peninsula," was a splinter group of the Taliban that had been active in Pakistan and Afghanistan. The department said the group had been in contact with al-Qaeda leaders in Pakistan and had been planning the attack for some time. Webber rules Spanish GP; Alonso now second overall

SEBASTIAN VETTEL (BMW) won the Spanish Grand Prix on Sunday, taking his second victory of the season and moving up to second place in the drivers' championship. Lewis Hamilton (Mercedes) finished second, while Fernando Alonso (Ferrari) moved back to third place after a disappointing race. The race was held at the Circuit de Barcelona-Catalunya and was a thrilling contest, with Vettel leading from start to finish. Alonso, who had been leading the championship, was overtaken by Hamilton in the final stages of the race. Vettel's victory was a significant boost for his team, as they had been struggling in recent races. Alonso's fall from grace was a blow to Ferrari, who had been hoping for a strong performance from their star driver. The race was a testament to Vettel's skill and determination, as he overcame a difficult start to secure the win.

Braden gives Oakland first perfect game in 42 years

Oakland Athletics pitcher Tim Lincecum pitched a perfect game against the Los Angeles Angels on Sunday, becoming the first pitcher in Oakland history to achieve the feat. Lincecum, who was making his debut for the Athletics, pitched a flawless 9 innings, allowing no hits, runs, or errors. The victory was a historic moment for the team, as they had not pitched a perfect game since 1968. Lincecum's performance was a testament to his skill and focus, as he maintained composure throughout the game. The Athletics fans were in for a treat, as they witnessed a rare and remarkable feat in baseball history.

Inflation outlook favorable, BSP survey shows

Private sector economists expect 4.7% in 2010, 4.6% in 2011

By Michael S. Suter

MANILA, Philippines — The private sector's outlook for inflation in 2010 and 2011 is generally favorable, according to a survey by the Philippine Economic Association (PEA). The survey, which is the 10th annual survey, shows that private sector economists expect inflation to be 4.7% in 2010 and 4.6% in 2011. This is a significant improvement from the 6.5% expected in 2009. The survey also shows that the private sector expects the BSP to maintain its current policy of keeping inflation low and stable. The survey was conducted by the PEA, a group of private sector economists and business leaders. The survey results are based on the responses of 100 private sector economists and business leaders. Figure 1 displays 16 small grayscale images arranged in a 4x4 grid. Each image shows a different pattern of white noise (pixels) on a black background. The patterns are labeled 'a', 'b', 'c', and 'd' from left to right, and '1', '2', '3', and '4' from top to bottom. The patterns vary in density and distribution of white pixels.
